

With refined styling and a streamlined profile Imagine is packed with new design innovations. This banner is also our most popular removable cassette roller system, and has been specially designed for maximum convenience and ease of use.

## features & benefits

- Choice of 800 or 1000mm widths
- Available in anodised silver
- Charcoal grey end caps
- Drop-in cassette designed to accommodate graphic media up to 450 microns thick\*
- Ratchet tensioner
- Twist & lock telescopic pole
- Supplied with quality foam padded carry bag
- Add your own branding using the slide in graphic channel along the banner base

\*Please test your substrate suitability before use

**Drop-in  
Cassette**

**Universal  
grippa/adhesive  
Top rail**

**Ratchet  
Tensioner\***

**Integral Pole  
Storage**

**Telescopic  
Pole**

**Add your own  
branding if  
required**

\*Graphic tension may be re-applied or added to by turning the ratchet tensioner clockwise; 6 clicks of the ratchet tensioner equal 1 revolution of the banner stand spring. **(NB Units are supplied pre-tensioned)**

# Assembly Instructions

## Banner stand assembly

Turn the base over and open the pole retainers. Remove the pole from the base. **Important: Close the pole retainers before using the banner stand.**

Set the telescopic pole to the desired graphic height. **Twist clockwise to lock, anti-clockwise to unlock.** Fit the pole into the base.

Lift the top rail to raise the graphic from the base. Lean the banner stand backwards and continue to extend the graphic.

Secure the graphic into position by locating the top rail onto the pole.

**Important: Hold the top rail whilst lowering the banner to prevent damage to the graphic. (do not drop)**

## Graphic attachment - Adhesive rail option

Rotate the rail end cap to expose the plastic adhesive rail insert.

Slide the rail insert from the top rail. Adhere the insert to the **front** of the graphic.

Slide the rail insert and graphic into the top rail. Close the rail end cap.

## Graphic attachment

Using the Allen key stored in the base, loosen the top rail screws. Rotate the rail end cap to expose the steel flat bar.

Slide the flat bar from the top rail and remove the backing paper.

Adhere the flat bar to the **back** of the graphic. Slide the flat bar and graphic into the top rail. Tighten the screws to secure the top rail. Close the rail end cap.

Securely attach the graphic to the self adhesive fastener on the banner leader strip.

**WARNING: Always attach graphic to cassette and top rail before removing the locking pin.**

Whilst holding the graphic, remove the locking pin from the base and gently allow the graphic to retract.

Load the cassette into the base and close the snap retainer to secure. **CAUTION: ensure fingers are clear of the snap retainer when closing.**

After fitting, the graphic should be left for 24 hours before use to ensure the adhesive bonds sufficiently. Opening the cassette may invalidate the product warranty.
